

LazyLlamaCoin – Whitepaper

1. Introduction

LazyLlamaCoin (\$LLAMA) is a meme-powered community token built on the Solana blockchain.

It's all about fun, memes, and rewards – no stress, no utility promises – just pure decentralized entertainment.

LazyLlamaCoin rewards holders for chilling, thanks to a unique auto-reward mechanism.

2. Mission & Vision

Our mission is to become the chilliest meme community in crypto.

Our vision is a decentralized, relaxed movement that rewards holders for doing absolutely nothing.

We believe memes are culture – and \$LLAMA is the currency of that culture.
